

## Tool Library Policy of Usage

**Tool rental is for 7 days.** You can extend your tool loan by contacting the store, the best method would be to reply to the automatic reminder email otherwise calling the store and speaking to a member of staff.

Continual renewals may be denied if there is demand for the tools from other users.

**There is a \$3 penalty per tool per day for late returns.** This can add up very quickly. It is your responsibility to keep track of this. Confirming your email upon registration will help mitigate this. Communicate with us if there are special circumstances.

The tools are for home DIY projects ONLY and not for work. This resource is not for commercial usage.

You are expected to know how to safely operate the tool you are borrowing. Including but not limited to, a pre-use inspection, ensuring it is used correctly for the task and is equipped with applicable hardware. WCSS Staff or Volunteers are not able to give you training or advice on how to use the tools.

The library runs on a cooperative basis, meaning that it is a jointly owned, democratically controlled enterprise. If you injure yourself with the tool; you have injured yourself with your OWN tool.

Please return the tool in the same condition that you borrowed the tool or you may be subject to a \$3 maintenance fee or up to the full replacement value of the tool.

Failure to comply with any of these rules may result in revocation of borrowing privileges and/or legal action against the user.
